

# Agentic AI in Education

David Kozera  
Microsoft 365 for Education Country Lead

# Intro & Agenda

**Who** is this guy?

**Overview** of current AI landscape for meeting rooms and classrooms, and for personal and group collaboration automation.

**What** is this agentic AI thing?

**Why** agentic AI will change learning for students, teachers, and families.

**Questions** and hopefully answers

# 300M+

monthly active Teams users

## 2x

Active Teams Rooms devices in the past 18 months

## 2x

YoY revenue growth<sup>1</sup> with strong adoption of Teams Rooms Pro

## 70%

Of Fortune 500 companies including L'Oreal, United Airlines, and US Bank use Teams Rooms

## 1M+

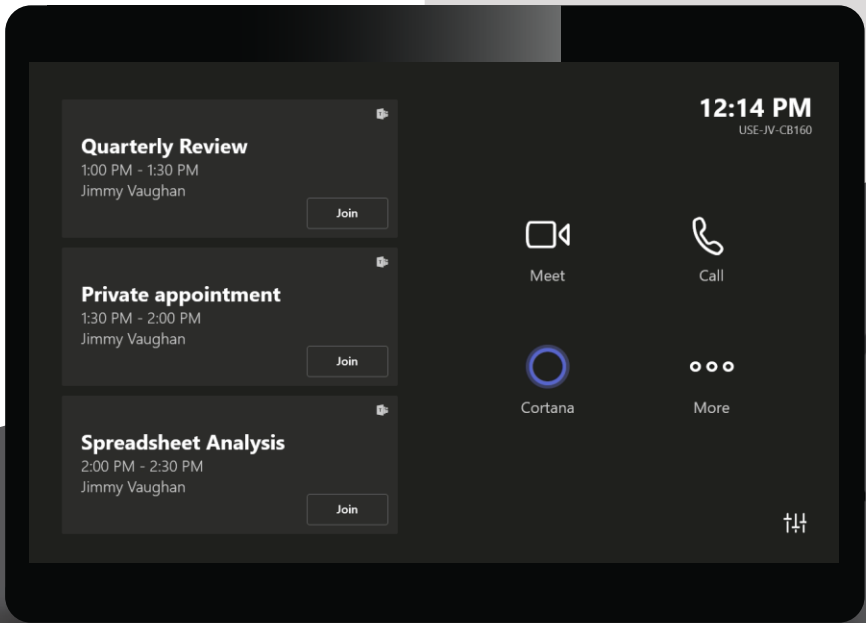

Teams Rooms exceeds 1 million deployments

<sup>1</sup> Source: [Microsoft Fiscal Year 2023 Q4 and Fiscal Year 2024 Q3 Conference Call](#)

# Microsoft Teams Rooms User Interface

CONSOLE

SPEAKER & MIC

MINI PC

# Classroom – K12

Content capture camera, Intelligent camera, and room-wide audio peripherals

## Setup

Center of room console to power a meeting with video intake of class through a PTZ camera, collaboration through intelligent capture on content camera, audio intake from ceiling or satellite microphones and speakers placed around or in front of room

*Pictured: Jabra Panacast, Logitech Brio, Logitech Tap and Rally Plus kit*

## Benefits

Use whiteboarding intelligently, see all remote participants and create a true hybrid classroom

## Ideal for

Teachers with movement who prefer analog collaboration and content in a medium sized classroom

# Discussion classroom – Higher Ed

High quality audio and video capture for smaller, U-shaped room

## Setup

Front of room camera to capture teacher and students with two dual speakers and satellite cameras placed around room.

*Pictured: Logitech Tap + Rally plus kit, Surface Hub 50"*

## Benefits

Capture dialogue and video exchanged among students and teachers and deliver to a remote audience

## Ideal for

Smaller room with discussion based material, likely a higher education scenario

# Empower everyone to be seen, heard, and recognized with AI-enhanced high-quality audio and video

- **Voice isolation and noise suppression** for crystal clear calls and meetings no matter where you are
- **IntelliFrame video features and spatial audio** make hybrid meetings more inclusive and natural as if you're all at the same table
- **Speaker recognition and transcript attribution** enabling intelligent recaps and the magic of Copilot<sup>1</sup> for meetings

[aka.ms/voiceprofile](https://aka.ms/voiceprofile)

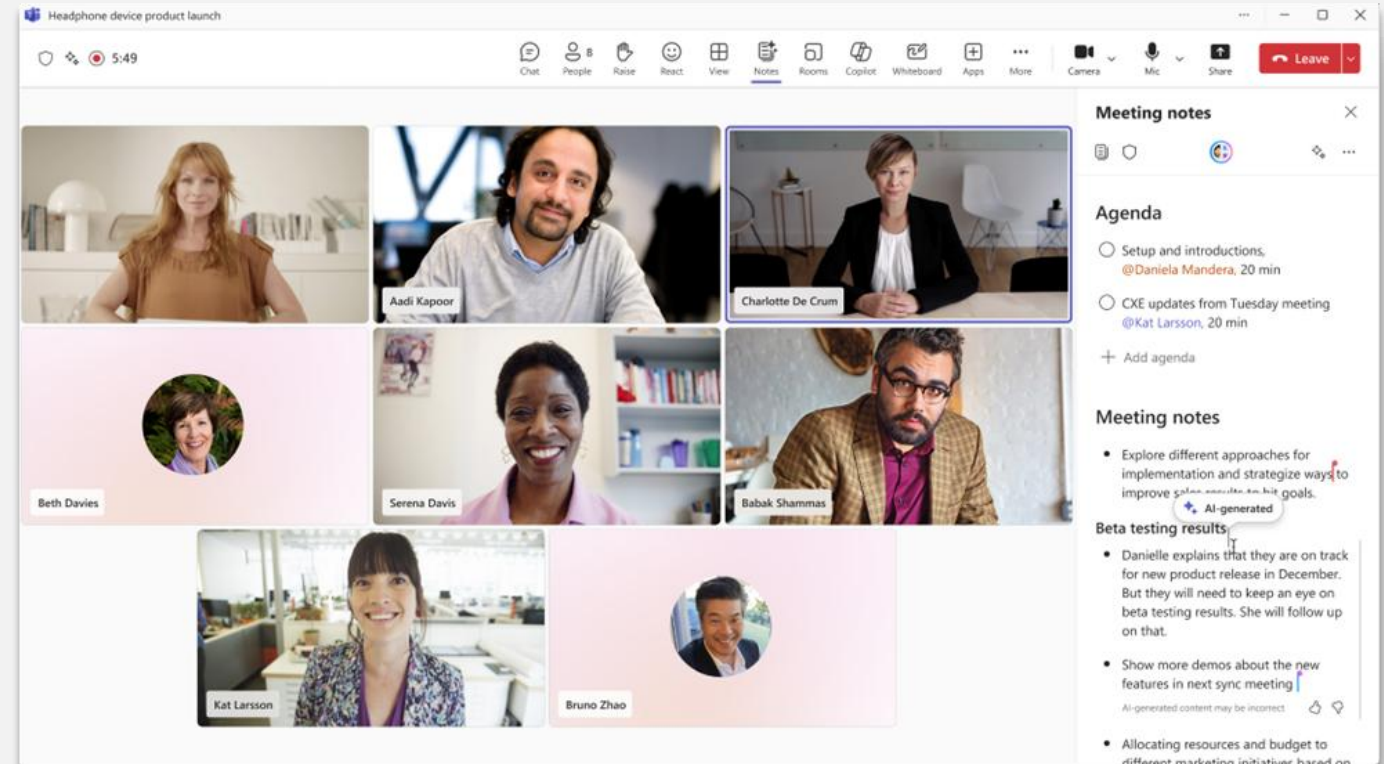

<sup>1</sup> Copilot licensed separately. Speaker recognition and attribution is provided in a Teams Room Pro-licensed room. For bring your own device (BYOD) rooms, hosts need to be licensed for Teams Premium.

## Copilot Studio and Agents

### Facilitator

Facilitator starts taking real-time notes during Teams meetings, allowing everyone to co-author and collaborate seamlessly.

Facilitator also generates an up-to-date summary of important information in Teams chats including key decisions, action items, and open questions to resolve.

and agent management

# Microsoft 365 Copilot Chat

## Enterprise-ready web chat

The screenshot displays the Microsoft 365 Copilot Chat interface. At the top, the Copilot logo and a question "What is the ratio of EV cars to..." are visible. A sidebar on the left contains navigation icons for Home, Copilot, Pages, Create, OneDrive, and Apps. The main chat area shows a response to a query about the ratio of EV cars to EV chargers by region in the US for the past three years. The response includes a table with the following data:

Region	Year	EVs per Charger
Northeast	2022	14:1
	2023	12:1
	2024	10:1
Midwest	2022	18:1
	2023	16:1
	2024	14:1
South	2022	20:1
	2023	18:1
	2024	15:1
West	2022	12:1
	2023	10:1
	2024	8:1

Below the table, a paragraph explains that these ratios reflect the increasing number of EV chargers being installed across the country, particularly in regions like the West and Northeast. It then asks, "Is there anything else you'd like to know about EVs or their infrastructure?". At the bottom, there are two numbered prompts: "1. Electric Vehicle Charging S..." and "2. Electric Vehicle Charging L...". A footer bar contains the text "Ask me anything..." and a character count "0 / 10000".

## Education Stories

### Brisbane Catholic Education

Deploying Microsoft 365 Copilot to 12,500 educators and support staff, in largest rollout for K-12 globally to date.

"Participating educators reported **saving an average of 9.3 hours per week**. These gains were in areas such as administrative tasks, searching for information internally and on the web, and accelerating lesson and curriculum planning."

<https://news.microsoft.com/en-au/features/brisbane-catholic-education-to-deploy-microsoft-365-copilot-to-12500-educators-and-support-staff-in-largest-rollout-for-k-12-globally/>

### University of Manchester

The University has rolled out Microsoft 365 Copilot to three cohorts of users. It is currently investigating the potential of Copilot for Security.

**"98% reduction in the administrative burden"**

"We found that the administrative burden during the meeting was reduced by 98%. There are human checks that need to be completed afterwards but, **overall, we calculated a cost saving of 48%.**"

# Employee Self-Service Agent

The Employee Self-Service Agent expedites answers to common workplace policy questions and takes action on key HR and IT related tasks. For example, users can request benefits information, start a LOA, request a new laptop, or get assistance with Microsoft 365 apps and services – all within BizChat. The agent can be customized in Copilot Studio using pre-configured templates, workflows, and connectors to knowledge sources like SharePoint, third-party systems like Workday, SAP, and ServiceNow.
