

# Appendix A – Learner Reflection

## Professional Learning – Anglophone Sector

### Early Learning and Development

#### Department of Education and Early Childhood Development

This reflection form is intended to help deepen your thinking about a professional learning experience. The operator may ask you to share your reflection to support professional growth, annual reviews, or Quality Improvement Plans (QIPs). Early Learning and Childcare Licensing staff generally do not require access to learner reflections. However, if clarification is needed for designation purposes—such as verifying training hours or type of training—they may review the reflection form. In all other cases, sharing your reflection is at your discretion.
